¹ only for interior use A = 5 Litres*, C = 20 Litres, E = 120 Litres*
* not in all countries available

Note: The Rosenheimer color table should be observed when choosing the color tone

Important information:

Due to international changes, certain color codes have been renamed e.g. 006 Light Oak -> **K006 Light Oak Classic** or 015 Wenge -> **915 Wenge**. Only the name has changed, not the color tone.

COATING SYSTEMS

Impregnation	Basestain	Mid and finishing coat

CETOL WF 950/955

COLOR COLLECTION

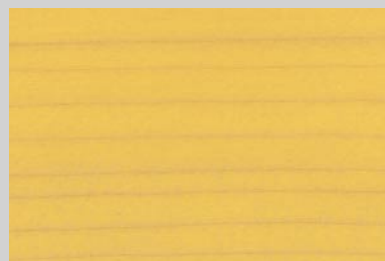

PowerFeed®-Technology –
the new translucent binder generation
with long-term protection

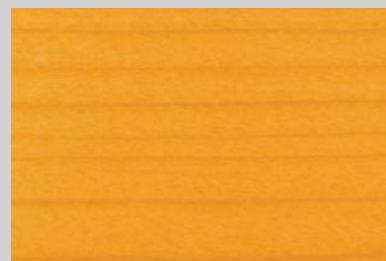

TRANSLUCENT COLORS FOR TIMBER WINDOW AND DOOR JOINERY MANUFACTURERS IN CETOL WF 950/955

Standard colors

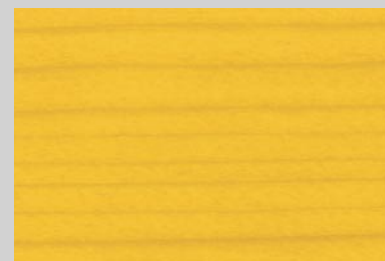

Softwood timber species

K996 Ash Classic (E9.51.59T)
(Short renovation period)

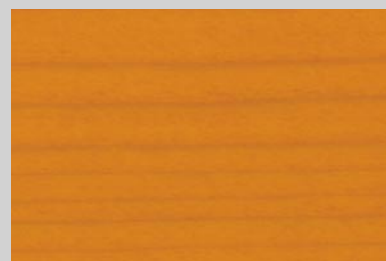

943 Honey (E0.45.55T)

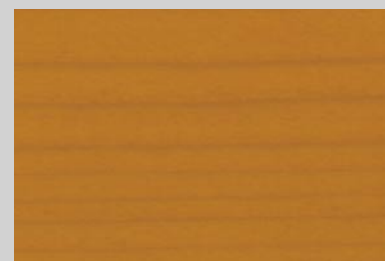

K077 Pine Classic (F0.58.64T)

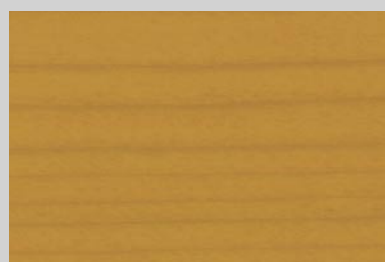

K073 Old Pine Classic (E5.62.45T)

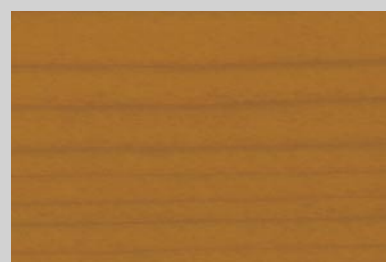

944 Cherry (D4.30.50T)

K085 Teak Classic (D8.51.33T)

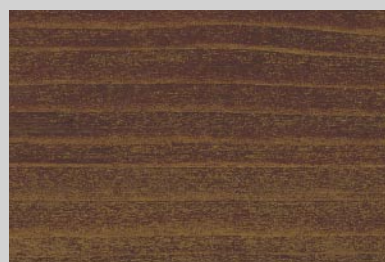

K006 Light Oak Classic (E4.52.45T)

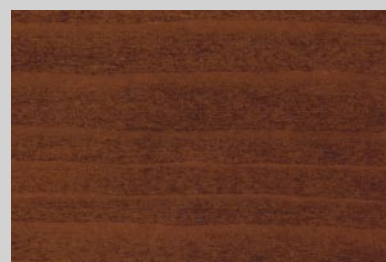

K009 Dark Oak Classic (D7.47.33T)

K045 Mahogany Classic (C9.48.25T)

K010 Walnut Tree Classic (D6.32.17T)

K048 Rosewood Classic (C0.25.14T)

Information about the finishing system for standard colors applied on spruce:

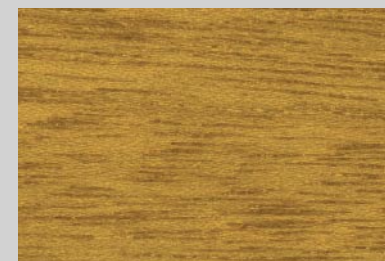

Cetol WV 881 (colorless) 1 x dipping
Cetol WP 560 (basestain color) 1 x dipping
Cetol WF 950/955 (color tone) 2 x spraying
(at 150 µm wet film thickness)

Please note:

Depending on the wood species, translucent colors can have a different color shade appearance, even when using the same type of wood. Dark colors have a better UV protection than less pigmented colors. Further information can be obtained from the Rosenheim color table.

The color tone depth is dependent on the wood species, dry film thickness, application method and the selected color tone of the topcoat and basestain. **It is necessary to make a sample.**
The shown colors can differ from the original color tones due to technical reasons.

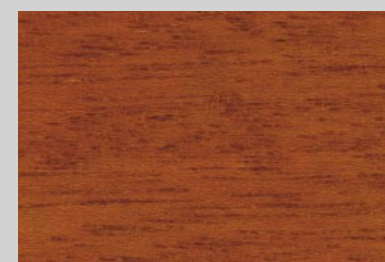

Hardwood timber species

K006 Light Oak Classic (E4.52.45T)

K085 Teak Classic (D8.51.33T)

K045 Mahogany Classic (C9.48.25T)

K010 Walnut Tree Classic (D6.32.17T)

Information about the standard finishing system applied on meranti:

Cetol WP 560 (basestain color) 1 x dipping
Cetol WF 950/955 (color tone) 2 x spraying
(at 150 µm wet film thickness)

Trend colors

Softwood timber species

Pearl White F4.03.75T

Poplar E4.12.72T
